

## about us

---

Platinum Air Suspension was started in 2003 to bring Quality, Value and Innovative Technology to hard-core Custom motorcycle riders. BLEED FEED TECHNOLOGY, developed by Platinum to be the industries best air suspension riding system. At Platinum we believe that your custom Motorcycle should have a custom ride and with Bleed Feed system you get that ride. Ride It The Way You Want.

Platinum took the technology that was used in the trucking & aircraft industry & applied it to the motorcycle air suspension market. This technology allows you to pressure (lift) & back pressure (ride height adjustment / rebound control).

This product will allow you to have a lowered look & comfortable ride at any desired ride height. Platinum is dedicated to manufacture a reliable & quality product that has been tested for the past 5yrs in the motorcycle industry. There is a BLEED FEED & SIMPLE system available for H-D / V-TWINS, METRIC CRUISERS & STREET BIKE applications.

## In The News

## PLATINUM LIMITED WARRANTY

Platinum has a one year limited warranty. This warranty covers all material and manufacture defects. Platinum will not be responsible for any cost of labor associated with the part in question. Warranty will be VOID if the part was improperly installed.

## Returns Policy

In the event that an item needs to be returned within the warranty period, you must contact the original seller (dealer) of the part to obtain an RMA return number (required for all returns). Place the return Authorization Number on a visible place on the box. If the number is not there your order will be refused. Also include a copy of the original invoice and a brief description of why you are returning the product.

## Refused orders

All refused packages are subject to a 20% restocking charge, plus all freight, shipping and C.O.D. fees. No returns on special orders.
